

**Storm Water Committee
Meeting Minutes
Wednesday, September 8, 2021**

Winton Storm Water

- John Mandarano confirmed that that tony spoke with Archbald and said that we will not be able to partner with them on the Winton storm water project because the Howell St line does not have the required capacity.
- John had 2 options prepared, but we are asking for a hybrid of both of them. John will work on an update for the next meeting.
- Tony is meeting with DPW to assess the fixes required to the existing swales in Winton.

Ward Street

- The contractor doing the Ward Street project has the pipes, but John is confirming that they are the correct ones.
- The contractor is still waiting for inlet boxes.

1st Avenue (LaSalle Academy)

- The committee reviewed plans for storm drains by LaSalle academy. The cost is around \$75,000. This is a lower priority.

Misc.

- Jeff Smith discussed a proposed ordinance that would require developers to reduce storm water runoff by a percentage over the original when developing land over a certain acreage.
