RE: Winton - Triboro 230 kV Transmission Line
Parcel #: 1260201000123, 1260201001403

Dear Borough of Jessup,

I'm reaching out on behalf of PPL Electric Utilities to inform you that it is planning to build the Winton - Triboro 230 kV transmission line in your area. This project will improve electric service and reliability for you and your neighbors for years to come. This letter also serves as a notification, as required by the Pennsylvania Public Utility Commission (PUC), because PPL Electric would like to place the proposed transmission line on or near your property.

Within this packet, you'll find notices required by the PUC that provide information regarding right-of-way maintenance practices, land agent conduct and eminent domain. Also enclosed are PPL Electric's internal practices for dealing with the public on power line projects. Please review this information at your convenience. The PUC's regulations require that you are provided with this information at least 15 days prior to any negotiations related to compensation for the easement. For your convenience, I've also included information about PPL Electric's vegetation management practices, electromagnetic fields and a glossary of real estate terms.

Should you have any questions or concerns, please don't hesitate to contact me by phone at 610-606-1938 or via email at Jordan.mcmurray@contractlandstaff.com.

Thank you for your time and understanding in this project.

Sincerely,

Jordan McMurray
Sr. Right-of-Way Agent
Representing PPL Electric Utilities

I acknowledge receiving the information referred to in the letter above and understand that it does not obligate me in any way.

Survey Permission

To be able to successfully design a transmission line, PPL Electric Utilities must complete some surveys and tests. This work can include, but is not limited to, property boundary location surveys, topographic surveys, core borings, soil resistivity testing, infiltration testing and more. PPL Electric may need to conduct some of these surveys and tests on or near your property. You'll be able to identify PPL Electric employees and contractors as they will be able to provide their company identification upon request.

PPL Electric is requesting your permission for employees or contractors to perform these surveys and tests on or near your property. Please sign in the space provided below to reflect your agreement. Thank you for your time and understanding in this project.

Sincerely,

Jordan McMurray
Sr. Right-of-Way Agent
Representing PPL Electric Utilities

I hereby grant PPL Electric Utilities or its contractors permission to enter onto my property for the purpose of performing the above various surveys and tests.
